

CORNELY 10

Industrial Picot Sewing Machine

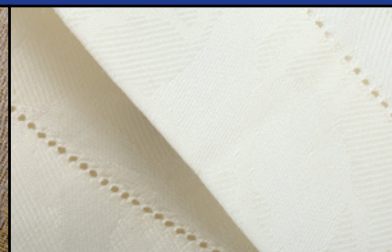

Heavy duty industrial picot sewing machine for production of traditional “ a jour ” pierced house linen and apparel.

Sample 1

Sample 2

Sample 3

STANDARD PICOT STITCH

All the samples were made on the Cornely 10-3 standard model. **The first sample** was made on light curtain fabric, **the second** on linen cloth, **the third** on cotton.

The dimension of the holes are dependent on the Cornely 10 model but also on the type of fabric used.

Stitchwidths in one operation for the different CORNELLY 10 models, without preparation of the fabric.

CORNELY 10 - 2	1 mm wide
CORNELY 10 - 3	2 mm wide
CORNELY 10 - 4	3 mm wide

APPLICATION :

Traditional table linen, bed linen. Light curtains. Blouses, scarves, handkerchiefs.

FEATURES:

Two needle machine with two rotary hooks and with front-piercer and puncher.

This new and improved model with "timing belt" ensures smoother operations at higher speeds.

Machine is available with different stitch widths from 1 to 8 mm. Stitch widths are dependent on type of fabric and on type of CORNELLY 10 (2 till 8) model.

OPTIONS :
